

Partner search Kretinga District Municipality

Kretinga District Municipality Administration (Lithuania, www.kretinga.lt) would like to join Town Twinning and/or Networks of Towns projects. With a population of 46,100, the district of Kretinga covers the area of 991 square km in the north-western region of Lithuania. It is located 15 km away from the Baltic Sea and 40 km away from Latvian border. We are mostly interested in cultural and city development projects, but we would be glad to receive any other invitation and would consider each idea. Please feel free to contact us by 27th February, 2015.
